

Faculty: Elizabeth E. Hogue

Elizabeth E. Hogue is an attorney in private practice with extensive experience in health care. Prior to becoming an attorney, she was employed as a personnel manager by a Blue Cross-Blue Shield Plan. She studied at the University of Maryland School of Law, concentrating in health law, and gained considerable clinical experience, course work and employment experience in this area. Following her admission to the Bar, she developed an active practice in health law. She represents clients all over the country. Her clients are professional associations, managed care providers, and institutional health care providers, including hospitals, long-term care facilities, home health agencies, durable medical equipment companies, and hospices. She has also represented a number of individual providers and case managers concerning health-related issues.

What Providers Need
to Know About

Health Care Reform

AUDIO CONFERENCE

Thursday September 9, 2010
10:00 a.m. to 11:30 a.m. PST

Brought to you by:
California Association for Health Services at Home

What's it about?

Schedule the time to join us on Thursday September 9th from 12:00-1:30 pm PST for a special 90 minute audio-conference on **Health Care Reform**.

Health care reform will undoubtedly result in changes with far reaching effects on home health agencies, hospices, and home medical equipment (HME) companies. There will, for example, likely be significant changes regarding patients' right to freedom of choice of providers. Increased utilization of telemedicine makes it important for providers to know how to manage their risks related to its use. Providers will likely also be subject to more stringent fraud and abuse compliance requirements. The purpose of this audio-conference is to provide insight and details regarding these changes with an emphasis on practical application to operations.

Objectives:

- Describe likely changes regarding patients' right to freedom of choice as a result of health care reform;
- Identify two ways in which providers can manage risks associated with telehealth.

Enjoy the convenience and cost-efficiency of a telephone workshop!

There is no travel time involved and no limit to the number of attendees from your agency who may participate at your site through one phone line. All you need to participate is a speaker telephone and a room large enough for your staff.

The teleconference will take place from 10:00 a.m. until 11:30 a.m. PST. Due to the expense of using the teleconference hook-up, registrations may not be shared between agencies – the agency's registration covers the access of only one phone line into the teleconference*. The handout will be emailed to you prior to the call to the email address you provide.

Your email confirmation will include:

Details of how to dial into the teleconference on a toll-free telephone line, the handout, agency roster, and evaluation. Please submit the roster, along with each individual evaluation in order to receive continuing education credits. Fees will be refunded only if written cancellation is received by CAHSAH two weeks prior to the workshop, and are subject to a handling fee. **No refunds will be given after the dial-in number is sent to your agency.**

*Please note that all phone lines are tracked. Each dial in location will be charged accordingly
