WHO SHOULD ATTEND

Basic Level: This class is structured to allow novice coders to develop basic coding skills & foster good habits crucial to coding success. These concepts are the critical foundational knowledge needed to begin a successful journey down the path to coding accuracy.

Intermediate Level: This class continues the quest for coding accuracy with a review of general coding guidelines and a closer look at chapter-specific coding guidelines. The latest guidance from CMS related to the completion of M1024 and other diagnostic criteria for the completion of OASIS-C will be discussed. Completion of coding exercises as well as analysis and comparison of these common home health scenarios facilitate the integration of these more complex coding concepts.

Advanced Level: This class looks at all the other issues related to home health coding beyond just describing your patient with ICD-9 codes. This intensely interactive class includes discussions, exercises & scenarios to facilitate the integration of the multitude of guidance facing home health coders today.
